## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph Price (Reg. No. 25,124) on 12/22/2006.

#### **IN THE CLAIMS:**

In claim 7, line 9 after "linking", "the" has been deleted.

In claim 18, line 8 after "about", "the" has been replaced with -- an --.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Independent claim 7 of applicant's 12/12/2006 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including an elastic member attached between the first driven lever and the second driven lever, in which the elastic member applies a variable contraction force and elastically linking movement of the first driven lever to the second driven lever, and **the first driven lever receives a driving force to move in a first direction thereby moving the second driven lever and causing the pushing board to move a banknote into the banknote storing section.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
